Seattle, WA | 206 488 4146 | [khaled.alsibai@gmail.com](mailto:khaled.alsibai@gmail.com) | [www.khaled-alsibai.com](http://www.khaled-alsibai.com)

## SUMMARY

An energetic, motivated and highly dynamic professional who just became a resident of the United States. Adept at providing technical support and developing new processes through ongoing work, defect resolution and enhancement solutions. Highly motivated self-starter with exceptional experience in leading all phases of business development and technology activities while providing the vision and management required to ensure a high-quality service. I'm looking to join a team of professional individuals, improve my web development skills, start a new career path and seek out new challenges.

## WORK EXPERIENCE

### Web Developer and photographer / 2016 - Present

Self-Employed, Seattle, WA

- Create website layout/user interface by using standard HTML, CSS, and JavaScript practices.
- Develop a good portfolio, building a network of contacts and achieving a reputation for quality and reliability in order to secure future assignments.
- Determine images composition; and select and adjust subjects, equipment, and lighting to achieve desired effects.
- Provide professional image editing services, including: retouching, masking, color management, and other image enhancements.
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities.

### Co-Founder / 2010 - 2015

FOKS/D.S.E, Jeddah, Saudi Arabia

- Coordinated activities that affect operational decisions and business requirements.
- Communicated with all relevant employees to ensure delivery times are met.
- Developed long-term professional relationships with advertising agencies and business owners.
- Advertised and implemented effective brand exposure campaigns through web and social media platforms.
- Provided professional photography and image editing services, including: retouching, masking, color management, and other image enhancements.
- Determined desired images and picture composition; and selected and adjusted subjects, equipment, and lighting to achieve desired effects.

### Multimedia Project Manager / 2003 - 2010

Miraat Information Technology, Jeddah, Saudi Arabia

- Created an exciting, engaging, and interactive multimedia experience through the use of Adobe Director, Flash, Photoshop, and Illustrator, Microsoft Access and V12 database engine, INM's Impresario, Print-O-Matic, and Buddy API.
- Supervised multimedia designs and development in liaison with animators, programmers, writers, video producers, sound engineers and 3D artists.
- Collaborated with my team to create Flash media used within Director projects.
